iShares Core MSCI AC Asia ex Japan Index ETF

As of 30/09/2017

iShares®
by **BLACKROCK®**

IMPORTANT: Investment involves risk, including the loss of principal. Investors should refer to the Prospectus and Key Facts Statement of the iShares Core MSCI AC Asia ex Japan Index ETF (the "ETF") for details, including the risk factors. Investors should not base investment decisions on this marketing material alone. Investors should note:

- The ETF aims to provide investment results that, before fees and expenses, closely correspond to the performance of the MSCI All Country Asia Ex Japan Index. The exposure of the ETF is concentrated in the Asian market and may be more volatile than funds adopting a more geographically diversified strategy.
- The ETF is subject to tracking error risk, which is the risk that its performance may not track that of the underlying index exactly.
- The ETF invests in emerging market countries in Asia. Investments in emerging markets are generally subject to a greater risk of loss than investments in a developed market.
- The ETF invests in stocks of large to mid-capitalisation companies. Stocks of mid-capitalisation companies may have lower liquidity and higher volatility compared to stocks of larger capitalisation companies.
- The ETF may invest in other iShares ETFs which provide exposure to Indian securities to track the performance of Indian constituents of the Index, and in other ETFs for cash management and contingency purposes. Conflicts of interest may arise if the Manager also acts as manager of the other ETFs invested by the ETF. There is also no guarantee these ETFs which the ETF invests will achieve their respective investment objectives and any tracking error of these ETFs and difference of the underlying constituents will contribute to the tracking error of the ETF.
- The ETF's Base Currency is in HKD but has units traded in USD and RMB (in addition to HKD). Investors may be subject to additional costs or losses associated with foreign currency fluctuations between the Base Currency and the USD or RMB trading currency when trading units in the secondary market.
- RMB is currently not freely convertible and is subject to exchange controls and restrictions. Non-RMB based investors are exposed to foreign exchange risk on RMB-denominated investments.
- If there is a suspension of the inter-counter transfer of units between the counters and/or any limitation on the level of services provided by brokers and CCASS participants, Unitholders will only be able to trade their units in one counter. The market price of units traded in each counter may deviate significantly.
- The Manager may at its discretion pay dividends out of the capital of the ETF. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distributions involving payment of dividends out of the ETF's capital may result in an immediate reduction of the Net Asset Value ("NAV") per Unit.
- Trading prices on the SEHK is subject to market forces and may trade at a substantial premium or discount to the NAV.

INVESTMENT OBJECTIVE

The iShares Core MSCI AC Asia ex Japan Index ETF aims to provide investment results that, before fees and expenses, closely correspond to the performance of the MSCI All Country Asia ex Japan Index.

GROWTH OF 10,000 HKD SINCE INCEPTION

 UBS Securities Hong Kong Limited

COUNTRY BREAKDOWN (%)

Geographic exposure relates principally to the domicile of the issuers of the securities held in the product, added together and then expressed as a percentage of the product's total holdings. However, in some instances it can reflect the country where the issuer of the securities carries out much of their business. Due to rounding, the total may not be equal to 100%.

Disclaimer Unless otherwise specified, all information as of the month end. Sources: BlackRock and MSCI Barra. The above iShares Funds data is for information only.

Investment involves risk, including possible loss of principal. Investment in emerging market countries may involve heightened risks such as increased volatility and lower trading volume, and may be subject to a greater risk of loss than investment in a developed country. Before deciding to invest, investors should read the Prospectus and Key Fact Statements for details, including the risk factors. Performance is calculated on NAV to NAV basis, inclusive of all transaction fees and assumes dividend reinvestment. The investment returns are denominated in base currency, which may be a foreign currency. If so, US/HK dollar-based investors are therefore exposed to fluctuations in the US/HK dollar/foreign currency exchange rate. Rates of exchange may cause the value of investments to go up or down. Investors may not get back the amount they invest. Individual stock prices/performance do not represent the return of the Fund. Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than the original cost. Index returns are for illustrative purposes only and do not represent actual iShares Funds or iShares Trusts performance. Index performance returns do not reflect any management fees, transaction costs or expenses. Indexes are unmanaged and one cannot invest directly in an index. Past performance does not guarantee future results.

Index disclaimer MSCI and the MSCI Index names are service mark(s) of MSCI Inc. ("MSCI") or its affiliates and have been licensed for certain purposes by BlackRock. The Fund is not sponsored, endorsed, sold or promoted by MSCI. Nor does MSCI make any representation or warranty, express or implied, regarding the index(es) or the advisability of investing in any fund. iShares Funds are not sponsored, endorsed, sold or promoted by MSCI. Nor does this company make any representation regarding the advisability of investing in iShares Funds.
