

ChinaAMC Hang Seng SmallCap Index ETF (Stock Code: 3157)

Fund Factsheet

As of 30 Dec 2016

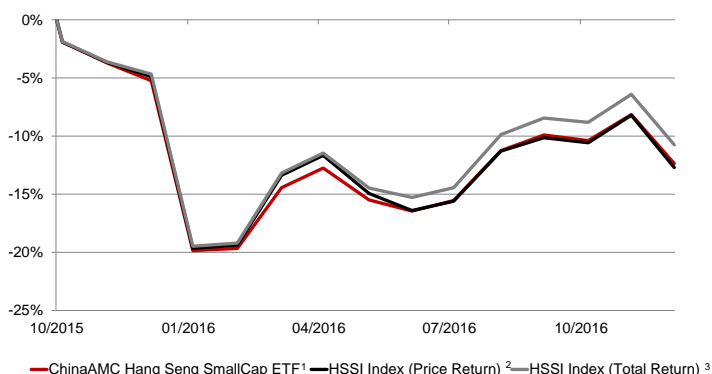

37/F, Bank of China Tower, 1 Garden Road, Hong Kong

- ChinaAMC Hang Seng SmallCap Index ETF (the "Fund") is a passively managed exchange traded fund and is listed on The Stock Exchange of Hong Kong Limited (the "SEHK"), investing primarily and directly in the constituent stocks of the Hang Seng Composite SmallCap Index (the "Index").
- The Fund is subject to concentration risk as a result of tracking the performance of a single geographical region or country (the PRC including Hong Kong), and may likely be more volatile than a broad-based fund.
- The Fund primarily invests in small cap securities. The stocks of these small capitalization companies may have lower liquidity and are typically more volatile and more vulnerable to adverse business or economic developments than those of larger capitalization companies. Lower liquidity increases the risk that securities may be sold at a loss, and may impair the ability of the Fund to accurately track the Index.
- Small capitalization companies generally have less diverse product lines than large capitalization companies and thus are more susceptible to adverse developments concerning their products, as well as the markets and sectors in which they operate. Small capitalization companies may be less financially secure than larger and more established companies, and they are more vulnerable to loss of key personnel.
- The Fund is not "actively managed" and therefore, when there is a decline in the Index, the Fund will also decrease in value. The Manager will not take defensive positions in declining markets. Investors may lose a significant part of their respective investments if the Index falls.
- Due to fees and expenses of the Fund, liquidity of the market and different investment strategies adopted by the Manager, the Fund's return may deviate from that of the Index.
- The units of the Fund are traded on the SEHK. The prices on the SEHK are based on secondary market trading factors and thus the Fund's market prices on the SEHK may deviate from the net asset value.
- You should not make any investment decision solely based on the information on this material alone. Please read the relevant offering documents for details including the risk factors before making any investment decisions. If necessary, you should seek independent professional advice.
- Investment involves risks. Past performance is not indicative of future performance.

▲ Investment Objective

The investment objective is to provide investment results that, before fees and expenses, closely correspond to the performance of the Hang Seng Composite SmallCap Index (the "Index").
