

LIPPO FUNDAMENTAL INDEXING ETF

Lippo Select HK & Mainland Property ETF (2824.HK)

IMPORTANT:

- Lippo Select HK & Mainland Property ETF (the "Fund") is an exchange traded fund which seeks to provide investment results, before fees and expenses that closely correspond to the performance of the Lippo Select HK & Mainland Property Index (the "Index").
- The Fund is "passively managed" and may decrease in value when there is adverse performance of the Index. The Fund's investments are concentrated in one sector which may result in greater volatility.
- The Fund is subject to concentration risk as a result of investing primarily in the property related securities from Hong Kong and Mainland China region.
- The trading price of the Fund on the Stock Exchange of Hong Kong Limited may deviate significantly from the net asset value of the Fund from time to time.
- Any positive distribution yield may not necessarily imply a positive return of the Fund.
- The Fund may not be suitable for all investors. Investors should not invest solely based on the information provided herein and should read the Fund's prospectus, including the risk factors, take into consideration of the product features, their own investment objectives, risk tolerance level etc and seek professional advices as appropriate prior to making any investment.
- Dividend policy: Annually at the Manager's discretion (March each year). The Manager may in its absolute discretion make dividend distributions out of capital or effectively out of capital to Unitholders from time to time. Dividends effectively paid out of capital amount to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distribution involving payment of dividends out of the capital may result in an immediate reduction of the Fund's net asset value per unit. Please refer to the Prospectus for further details.

INVESTMENT OBJECTIVE

The Fund aims to provide investment results, before fees and expenses, that closely correspond to the performance of the Index.
