- A Participating Dealer, an Eligible Investor or a Feeder Fund may only create or redeem Units in Application Unit sizes* (as defined in the Prospectus) directly with the Fund;
- There is risk related to divergence between the market price of the Units and the NAV of the Fund. The market price of the Units traded on the SEHK is determined not only by the NAV of the Fund but also by other factors such as the supply of and demand for the Units in the SEHK;
- The Units may trade at a substantial premium or discount to the Fund's NAV.
