

HANG SENG FTSE CHINA 50 INDEX ETF [^]

(SEHK STOCK CODE : 2838)

[^] Previously named as HANG SENG FTSE CHINA 25 INDEX ETF

www.hangsenginvestment.com

IMPORTANT RISK WARNINGS / FUND INFORMATION FOR HONG KONG INVESTORS

- Hang Seng FTSE China 50 Index ETF (the "HS FCI50 ETF") is an index-tracking fund which aims to match, before expenses, as closely as practicable the performance of the FTSE China 50 Index (the "Index"). The HS FCI50 ETF invests primarily in the constituent stocks of the Index.
- The HS FCI50 ETF is different from a typical unit trust as it is listed on The Stock Exchange of Hong Kong Limited, and like other listed stocks, carry similar risks such as liquidity risk and risk of trading suspension. The market price per Unit could be significantly higher or lower than its Net Asset Value per Unit due to market demand and supply, liquidity and scale of trading spread in the secondary market and will fluctuate during the trading day.
- The HS FCI50 ETF is subject to tracking error risks, risks associated with passive investments, risks of concentration of investments in a single market/several constituent stocks of the Index and risks associated with investments in mainland China (an emerging market).
- The Manager may, at its discretion, pay dividend out of capital. The Manager may also, at its discretion, pay dividend out of gross income while all or part of the fees and expenses of the HS FCI50 ETF are charged to/paid out of the capital of the HS FCI50 ETF, resulting in an increase in distributable income for the payment of dividends by the HS FCI50 ETF and therefore, the HS FCI50 ETF may effectively pay dividend out of capital. Payment of dividends out of capital or effectively out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distributions involving payment of dividends out of the capital of the HS FCI50 ETF or effectively out of the capital of the HS FCI50 ETF may result in an immediate reduction of the Net Asset Value per Unit of the HS FCI50 ETF.
- Investment involves risks and investors may lose substantial part of their investment in the HS FCI50 ETF.
- Investors should not only base on this factsheet alone to make investment decisions, but should read the HS FCI50 ETF's offering documents (including the full text of the risk factors stated therein) in detail.

INVESTMENT OBJECTIVE

Hang Seng FTSE China 50 Index ETF is an index-tracking fund that seeks to provide investment returns for investors that match the performance of the FTSE China 50 Index as closely as practicable.
