

Amundi Hang Seng HK 35 Index ETF

Stock Codes: 3012 (HKD) / 83012 (RMB)

Important Information:

Amundi Hang Seng HK 35 Index ETF (the "HS HK35 ETF") is a physical exchange traded fund seeking to provide investment results that, before fees and expenses, closely correspond to the performance of the Hang Seng HK 35 index (the "Index").

- Investment involves risks and investors may lose substantial part of their investment in the HS HK35 ETF. In particular, the HS HK35 ETF's investment in equity securities is subject to general market risks.
- The HS HK35 ETF is different from a typical unit trust as it is listed on the Stock Exchange of Hong Kong Limited, and like other listed stocks, carries similar risks such as liquidity risk and risk of trading suspension. The market price per Unit could be significantly higher or lower than its Net Asset Value per Unit due to market demand and supply, liquidity and scale of trading spread in the secondary market and will fluctuate during the trading day.
- The HS HK35 ETF is subject to tracking error risks, risks associated with passive investments and risks of concentration of investments in a single market/several constituent stocks of the Index.
- The HS HK35 ETF is also subject to dual counter risks, RMB trading and settlement risks, RMB currency and foreign exchange risks and reliance on market maker risks.
- The Manager intends to pay distributions to shareholders at least semi-annually. Distributions may be made out of capital or effectively out of capital as well as income at the Manager's discretion. Where distributions are made out of capital or effectively out of capital, this may result in an immediate reduction in the Net Asset Value per Unit.

July 2018
