IMPORTANT:

- The HK Dividend ETF is subject to concentration risk as a result of tracking the performance of companies whose operations and business are primarily
 from a single region (i.e. China and Hong Kong). Changes in political, economic and social conditions in the region could adversely affect the value of
 investments.

 of constituent stocks.

- Dividend distributions are not guaranteed and are subject to the discretion of the Manager.
- The units of the HK Dividend ETF may trade at a discount or premium to the net asset value of the units, which may go up as well as down.
- Investment involves risks and the HK Dividend ETF may not be suitable for everyone. Investors should read the Prospectus and Product Key Facts Statement carefully for further details including various risk factors and consider their own investment objectives and other circumstances before investing.
