

CICC KraneShares CSI China Internet Index ETF

Data as of 31 March 2018

Important Information:

Carefully consider the Fund's investment objectives, risk factors, charges and expenses before investing. This and additional information can be found in the Fund's Prospectus and Product Key Facts Statement of CICC KraneShares CSI China Internet Index ETF (together, the "Offering Documents"), which may be obtained by visiting www.cicc.com. You should not make any investment decision based on the information in this factsheet alone. Read the Offering Documents carefully before investing. The Offering Documents should be read for further details including the risk factors.

Nothing contained in this factsheet constitutes investment advice or should be relied on as such. This factsheet has not been reviewed by the Securities and Futures Commission of Hong Kong (SFC). SFC authorization is not an official recommendation of the Fund.

Investing involves risk, including possible loss of principal. There can be no assurance that the Fund will achieve its stated objectives. The Fund is subject to political, social or economic instability within China which may cause decline in value. Fluctuations in currency of foreign countries may have an adverse effect to domestic currency values. Emerging markets involve heightened risk related to the same factors as well as increase volatility and lower trading volume.

Narrowly focused investments typically exhibit higher volatility. Internet companies are subject to rapid changes in technology, worldwide competition, rapid obsolescence of products and services, loss of patent protections, evolving industry standards and frequent new product productions. Such changes may have an adverse impact on performance. The Fund is non-diversified.

The trading price of the Units on the SEHK is driven by market factors such as the demand and supply of the Units. Therefore, the Units may trade at a substantial premium or discount to the Fund's NAV. If there is a suspension of the inter-counter transfer of units between the counters and/or any limitation on the level of services by brokers and CCASS participants, unitholders will only be able to trade their units in one counter only, which may inhibit or delay an investor dealing. The market price of units traded in each counter may deviate significantly.

The Manager may, at its discretion, pay dividends out of capital or effectively out of capital. Payment of dividends out of capital or effectively out of the capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any such distributions may result in an immediate reduction of the NAV per Unit of the Fund.

Although the information provided in this document has been obtained from sources which China International Capital Corporation Hong Kong Asset Management Limited and Krane Funds Advisors, LLC believe to be reliable, it does not guarantee accuracy of such information and such information may be incomplete or condensed.

The document is issued in Hong Kong by China International Capital Corporation Hong Kong Asset Management Limited, a corporation licensed with the Securities and Futures Commission for Type 4 and 9 regulated activities.

Investment Strategy

CICC KraneShares CSI China Internet Index ETF seeks to measure the performance of the investable universe of publicly traded China-based companies whose primary business or businesses are in the Internet and Internet-related sectors.
