

CSOP MSCI China A International ETF

Stock Code: 83149/3149

All information as of 30 April 2018

IMPORTANT: Investment involves risks. Investment value may rise or fall. Past performance information presented is not indicative of future performance. Investors should refer to the Prospectus and the Product Key Facts Statement for further details, including product features and risk factors. Investors should not base on this material alone to make investment decisions.

- CSOP MSCI China A International ETF (the "Fund") is a physical index tracking ETF and it aims to provide investment results that, before deduction of fees and expenses, closely correspond to the performance of MSCI China A International Index ("Underlying Index").
- The Underlying Index captures large and mid-cap representation and includes A-Shares constituents of the MSCI China All Shares Index. All of the constituents of the Underlying Index are listed on the Shanghai Stock Exchange and the Shenzhen Stock Exchange.
- China is considered as an emerging market and investing in China market may subject to greater economic, political, tax, foreign exchange, regulatory, volatility and liquidity risks than investing in more developed countries.
- The concentration of the Fund's investments in a single geographical region (i.e. China) may subject it to greater volatility than portfolios which comprise broad-based global investments.
- Retail investors can only buy or sell units of the Fund on The Stock Exchange of Hong Kong Limited ("SEHK"). The trading price on the SEHK is driven by market factors and may trade at a substantial premiums or discount to its net asset value.
- Investors without RMB accounts may buy and sell HKD traded units only. They will not be able to buy or sell RMB traded units and should note that distributions are made in RMB only. As such, investors may suffer a foreign exchange loss.
- The Manager may, at its discretion, pay dividends out of capital or effectively pay dividends out of the capital. Payment of dividends out of capital or effectively out of the capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment and may result in an immediate reduction of the NAV per unit.

Investment Objective

The investment objective of the Sub-Fund is to provide investment results that, before deduction of fees and expenses, closely correspond to the performance of the Underlying Index, namely, MSCI China A International Index.
