Stock Code: 83147/3147

All information as of 31 December 2018

IMPORTANT: Investment involves risks. Investment value may rise or fall. Past performance information presented is not indicative of future performance. Investors should refer to the Prospectus and the Product Key Facts Statement for further details, including product features and risk factors. Investors should not base on this material alone to make investment decisions.

- CSOP SESZ ChiNext ETF (the "Sub-fund") is a physical index tracking exchange traded fund and it aims to provide investment results that, before deduction of fees and expenses, closely correspond to the performance of the ChiNext Index (the "Underlying Index").
- The Sub-Fund invests primarily in China A-Shares listed on the ChiNext board of the PRC Shenzhen Stock Exchange ("SZSE") primarily through the RQFII quota of the Manager.
- Listed companies in the ChiNext market (e.g. innovative or small/medium sized enterprises ("SME")) are usually in their preliminary stage of development with smaller operating scale and shorter operating history, and their businesses are usually subject to higher uncertainty and more fluctuations in their performance. Therefore, its stability and resistance to market risks may be lower.
- Given the emerging nature of the companies listed on the ChiNext market and their industries focus on scientific development, innovation and media industries, any failures in the process of the scientific development may result in losses in such companies.
- This Sub-Fund invests in constituent securities of the Underlying Index which are highly volatile and have a high price-earnings ratio. You may suffer a substantial loss by investing in this product.
- China is considered an emerging market and investments in the China market may be subject to greater economic, political, tax, foreign exchange, regulatory, volatility and liquidity risks, than that in more developed countries.
- The Manager may, at its discretion, pay dividends out of capital. Payment of dividends out of capital or effectively out of the capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. The Sub-fund may result in an immediate reduction of the NAV per Unit.
- Retail investors can only trade units of the Sub-Fund on the SEHK. The trading price of the units may be different from the Sub-Fund's NAV and even at a significant discount/premium to its NAV.

Investment Objective

The investment objective of the Sub-Fund is to provide investment results that, before deduction of fees and expenses, closely correspond to the performance of the Underlying Index, namely, ChiNext Index
